PROFILE

Software Engineering graduate from UTFPR, with experience as a Product Owner and as a teacher in a Technical High School program in Systems Development. I have completed a course in Unreal Engine focused on Blueprints and aim to apply my programming and software development knowledge to build a career in the game development industry.

PROFESSIONAL EXPERIENCE

Product Owner Intern

Kukac Soluções Cognitivas e Consultoria LTDA.
Period: September 3, 2022 – January 3, 2023

- Helped organize work teams by maintaining a task prioritization list.
- Gained practical experience with Scrum ceremonies, including Daily Stand-ups, Sprint Reviews, and Sprint Planning.

Teacher

CEEP Profª. Maria Lydia Cescato Bomtempo
State Center for Professional Education
Period: February 2, 2024 – February 2, 2026

- Taught in a Technical High School program in Systems Development, developing and delivering lessons in Basic Computing, Computational Logic, Introduction to Programming, Systems Analysis and Design, Computer Science, Computer Graphics, and Applied Programming for Systems Development.

EDUCATION

Federal University of Technology – Paraná (UTFPR)

- Bachelor's Degree in Software Engineering
- Graduation date: August 8, 2025

Game Development with Unreal Engine

- Game development course focused on visual programming using Blueprints. Certificate

PROJECTS

Pirate — Game with combat, enemy waves and a shop, built in Blueprints with the help of the course.

Lotus App — Point-of-sale system built with Electron, Node.js and SQLite, in use at a cosmetics store since early 2026.
